

The CLAAS is always greener

MAX SPREAD tine arms with 29 degree crank improves crop collection and spread.

Heavy duty 10.5mm tines with 5 coil wraps.

Strong box section frame mounted at 45° for maximum strength and a cleaner frame.

Tubular tine arms for maximum strength.

Quick and easy spreading angle adjustment.

Retaining ring under rotor rotor to clamp tine arms top and bottom for increased strength.

Headland spreading curtain reduces crop losses.

PERMALINK low maintenance drive line.

Each rotor pivoted individually for optimal ground contour following.

CLAAS VOLTO tedders use the patented MAX SPREAD crop flow system on all models, from 5.2m to 13.0m. Quality is not expensive, it's priceless.
