

A clean sweep

- 3D rotor suspension follows ground contour for clean swath.
- Oil immersed cam track for continuous lubrication.
- PROFIX tine arms for easy removal and strength.*
- Manual or electro-hydraulic raking height adjustment for easy setup.
- Visible raking height guide gives clear view from tractor cab.
- Jet effect rotor lift and lowering for clean raking.
- 4 and 6 wheel rotor carriage for excellent ground contour following.
- Pre determined bend on tine arms reduces damage.

* LINER 320, 370 & 2600 do not have the PROFIX tine arms

All CLAAS LINER rakes share the same rotor features that help give you the best swath of crop possible, from 3.2m to 15m working widths. Quality is not expensive, it's priceless.
