

GROUND CARE ENGINEER

We are currently recruiting for our Carlisle Branch

This is a fantastic opportunity to join arguably the leading professional groundcare business in Cumbria.

You will work as part of a busy team with a fantastic reputation for customer service and backup on a wide range of professional groundcare equipment for golf clubs, councils, caravan parks etc.

You will play a key role in the service, repair and fault diagnosis of customers machines both on and off site as well as preparing both new and used machines for delivery.

We will provide a comprehensive training package with all our main suppliers, including the full product range offered by Ransomes Jacobsen and Iseki as well as other leading brands.

You should be a team player with the ability to operate on your own initiative.

Ideally you will have some experience of the groundcare industry or have suitable transferable engineering skills.

You will be working for one of the leading professional groundcare business in the country, as part of a friendly team backed by extensive product training and any technical equipment and support you require.

We offer a very competitive salary, bonus structure as well as a service vehicle and all the technical equipment the job requires.

For a confidential discussion please contact Grant Burnett - Service Manager on 07870 558160 or alternatively email your CV to keri.ellis@rickerby.net

Closing date for applications 30th September 2021
