# TANCO BALE WRAPPERS

The TANCO A100EH is a robust, compact and efficient trailed wrapper suited for individual farmers and contractors

The EH model is fully automatic & bales are loaded, wrapped and unloaded with a press of a button,  
Two bales can be carried while moving: once the first is wrapped, the second is automatically loaded to the wrapping table

The 1400V uses TANCO's variable hyd speed control & unique split table, giving you the most stable and fastest wrapper on the market. With the unique split wrapping table, bales are loaded and unloaded simultaneously, resulting in continuous wrapping giving outputs well in excess of 100 bales per hour.

The 1400 V can easily keep pace with 2 bales in the field

## Wrap and Stack with Tanco S200-V

The Tanco Variwrap hydraulic system is our most advanced drive system to date. Proportional hydraulics allows for incremental speed adjustment, ensuring a smoother more consistent wrapping operation, resulting in less vibration and longer machine life. The Variwrap system also allows for greater top speed, delivering the highest levels of performance and reliability.

# KRM ICON

This high output machine with tall front opening or "mouth" and unimpeded material flow is capable of shredding large volumes of material, making it ideal for all tasks. Chopped material is deposited over the rear roller eliminating the risk of blockage. Single headstock, hydraulic side shift is standard on this machine

As standard, a hydraulic side shift is incorporated to operate the Icon in line with the tractor or offset up to 600mm to work around poles, trees or other obstructions.

Contact your local Salesman for more information.
